About Me

I am an Assistant Professor in the Dept of CSE at Islamic University of Technology (IUT). I am in the Computer Vision lab, advised by Prof. Hasanul Kabir. Before that, I received a M.Sc. and B.Sc. (Gold medalist) from IUT respectively in the year 2022 and 2017. My current research is in improving few-shot learning algorithms for image classification tasks. Besides, I've worked with different applications of deep learning in the field of computer vision such as leaf disease classification, gait analysis, traffic sign detection, handwritten digit recognition, etc.
